

U. S. TO STATION COMPANY C HERE

War Department Makes
Plans to Maintain the
Organization.

TULSA PEOPLE GLAD

Convention Hall Tendered
By Mayor After Wire
From Capt. Niles.

The United States war department has taken steps providing for the permanent assignment of this city of Company C, Oklahoma national guard if the telegram received Thursday evening from Captain Alva Niles by Mayor John Simmons can be taken as any indication of the course to be followed by the department after the troops are released from active duty in Mexico.

The telegram asks the city's chief executive to give assurance that suitable quarters will be placed at the disposal of the company for quarters and drill room in order that Company C may be maintained in this city even after the Tulsa contingent of the state's guard have been recalled from duty on the border.

Niles Sends Wire.

The telegram from Captain Niles follows:

Major John H. Simmons, Tulsa War department, sends assurance that Tulsa has suitable building that can be used by Company C after its return from Mexico. Wire me at once that Company C hall will be available. Alva J. Niles, captain Company C, G. S.

In reply Mayor Simmons wired Captain Niles that the citizens of Tulsa, as well as the city authorities, were at home to contribute to the perpetuation of the building to Company C. Tulsa and it is presumed that Captain Niles at once forwarded the communication to the war department.

Major Simmons announced at the commissioners' meeting yesterday morning that he had taken the liberty to reply as he did to Captain Niles, believing that it would meet with the approval of the commissioners.

Boxes for Troops.

WICHITA, Kan., June 26.—Surprise boxes containing candy, candy and other luxuries foreign to the commissary of the average military camp will be sent to the two Wichita companies of the Second Infantry of Kansas militia now in the service of the United States, according to announcements made here by civic organizations. A local committee has been appointed to buy "luxury" for the surprise boxes and a campaign has been made to see that the soldiers in the two companies do not want for anything. The plan was to send "boxes from home" to cheer the boys who are expected to spend considerable time on the Mexican border.

**WAR WILL BE HELL
AND A LONG ONE, TOO**
EL PASO, Texas, June 26.—"All the good people of both countries ought to get together and work for peace for the sake of all, while it lasts—and it will not be long time," Andres declared, the Mexican consul at El Paso said today.

He made the declaration in arms headquarters in Juarez in front of which armed civilians kept guard. The Mexicans regulars were nowhere in sight. Gavels—continued.

The United States will have to face a united people and a people determined to hold on to the last ditch. We have more than enough men trained to a style of warfare that makes the best use of our peculiar natural conditions. The Americans will encounter heavy losses in exterminating the Mexican people—for that is what the war would be."

"War will mean a terrific destruction of property in Mexico, as we realize. The estates of the wealthy reactionaries, who are responsible for the present embroilment, will be turned into deserts. Every means ought to be taken by both sides to avoid any threatened destruction of life and property."

PARKER MAY STAY ON TICKET

Progressive Nominee for Vice-President Urged to Keep Up Candidacy.

CHICAGO, June 26.—Friends of John M. Parker of Louisiana, nominee of the Progressive party for vice-president, urged him to remain on the ticket.

Binghamton, N.Y., and other progressive leaders who are opposed to Charles E. Hughes for president said that if Mr. Parker decides to stay in the race he should reapply the votes of all loyal members of the Bull Moose party.

"I have not made up my mind what I will do," said Mr. Parker. "I am going home and think it over for a few weeks."

Prohibition party leaders admitted that Mr. Parker remained on the Progressive ticket, he might be named for vice-president by the Prohibition national convention, which meets at St. Paul July 18 to 21.

Virgil H. Hinshaw, chairman of the Prohibition national committee, said:

"An amalgamation of the faction of Progressives opposed to Mr. Hughes with the Prohibition party is being seriously discussed. Both party platforms are practically in accord."

Will Lead Regimen,

Special to The World.

GUTHRIE, Okla., June 26.—John L. Lovelace, who saw service in Cuba, Philippines and Honolulu, and is listed as one of the recruiting officers of the Roosevelt division, has also been listed at the war department as head recruiting officer for the Oklahoma regiment of colored troops. Congress orders the enlistment of any colored regiment. Lovelace was the only man in Logan county with the nerve to try to beat Amos Irwin for the legislature from the Guthrie district. He is foreman of the Daily Leader office here.

OKLAHOMA SUMMER SCHOOLS SUCCESS

Heavy Enrollment and Enthusiasm at Normals Over State.

Special to The World

OKLAHOMA CITY, June 26.—Summer schools at the various state educational institutions are a great success this year. The number of students at this time is equal to the total number of teachers in Oklahoma five years ago.

Speeches by Dr. J. C. Muerman of the bureau of education, Washington, are a feature of the summer schools this year. Dr. Muerman is visiting all the institutions. His itinerary is more than one-half completed at this time and the impression he has gained of the educational system of Oklahoma is very favorable indeed. He says there is more interest in the summer schools in Oklahoma than in any other state which he has visited. His lectures are on rural schools. His experiences in those schools have made him authority on the subject.

Enrollment at the summer schools has been reported to the state superintendent as follows: Edmond, 2,541; Ingram, 938; Weatherford, 257; Altus, 907; Tahlequah, 828; Alva, 149; Tonkawa, 116; Claremore, 1,152; agricultural and mechanical, 597; state university, 302. All these students are doing credit work and will teach in some of the schools of the state the coming winter.

One of the features of the Oklahoma educational system is the economical administration of the schools to the end that the additional summer schools add slightly to the cost of the institutions. The plan is available and most of the faculty in each place is also available at the same time as the summer term was not held.

WITHDRAWNS FROM SENATORIAL RACE

Bull Moose Candidate of Missouri Steps Down for Harmony in Banks.

ST. LOUIS, June 26.—Judge Albert D. Norton, Progressive candidate for United States senator from Missouri, has withdrawn his candidacy as a candidate, and in his letter to the other Progressive state candidates has asked that they do likewise. Judge Norton attended the meeting of the Progressive national committee in Chicago Monday, at which Charles E. Hughes, the Republican nominee, was endorsed, tells his fellow Progressive candidates that "the Progressive party has passed from the stage as an active force in politics."

Can't Run as State Organization.

His withdrawal letter says in part: "We have done all we could for the party and the organization intact with a view of continuing the influence for good, at least on other political organizations. At the national committee meeting in Chicago Monday last a number of us co-operating together urged the nomination of Victor Murdock for president, so that we might have a national ticket in which we believe and in aid of which we could vote for our principles."

"It is useless to endeavor to pursue the fight here without a candidate for president with a majority of the national committee engaged in co-operating against us." While Mr. Hughes was not nominated by the Progressive committee and therefore is not the candidate of our party, he was endorsed by a majority of that body and of course this means that they will control the committee so far as that goes in favor of his candidacy. In these circumstances the burden of carrying on a state campaign, not only without the sympathy but against the progressive purpose of the national organization, is an extraordinary character as to render it well nigh an impossible task.

Nothing to Do Except Go Back.

"It would seem, therefore, that there is nothing for us to do save to individually choose our places as we see fit whereby we may perform the functions of a citizen and give expression to our views as best we may and permit those who affiliated with us to do likewise. In this view I have concluded that it is best for all of us to withdraw from the state ticket at once—that is, before the primary ballot is printed, which will probably be next week."

MAKING GAS BOMBS FOR THE U. S. ARMY

Frankford Arsenal Is Also Putting Out Aerial Missiles for War Department.

PHILADELPHIA, June 26.—Gas bombs, incendiary bombs, aerial bombs and hand grenades are being manufactured at Frankford Arsenal for the United States army. This announcement was made by Col. George Montgomery.

Experiments are now being conducted with a new gas bomb. This bomb will contain a combination of sulphur dioxide, a deadly gas, and several other poisonous gases.

Aerial bomb, which tests show to be satisfactory in a high degree, are on a new principle. Instead of being exploded by atmospheric pressure, the fuse depends solely on a click-like arrangement.

"This is considered advantageous," Colonel Montgomery said, "because when the bomb has been timed for such a height the rarified atmosphere at high altitude causes a too rapid burning of the fuse. But with the clock-work arrangement the bomb will explode exactly where desired."

After many attempts a successful hand grenade is now being made.

It has been arranged so that the mine dropping from the missile will result in no explosion. It is only the rapid hurling through the air and the impact that set it alive.

The Seasoned Politician.

"Why did you decide not to go to the convention?" inquired the loyal constituent.

"Well," replied Congressman Hammatt, "I thought I could get more out of it by staying at home and blaming the other fellows for whatever is done that turns out wrong."—Richmond Times-Dispatch.

A Lesson in Horticulture.
"Dad, what do they mean by personal?"

"Continuing from year to year," answered pop.

"Take my hat," interposed ma.

And then there was a deep, portentous silence.

BIG AUCTION SALE

AT TULSA, OKLAHOMA

Twenty-three first-class full blooded Jersey milch cows and heavy springers, one registered Jersey bull with papers, and ten calves, to be sold to the highest bidder on

SATURDAY, JULY 8th,
1916, at J. C. Mitchell Barn, 112 S.
Frankfort Street

Clerk.

An Historical Fact

Even before the days of our Forefathers, extracts from the same kind of roots, herbs and barks, now used in compounding the ingredients for S.S.S., were well known and extensively used among the Indians.

Science and modern methods have only changed the Indians way of handling the materials, the essential features are still in evidence in S.S.S.—Nature's Greatest Blood Purifier—and a natural sequence of the Indians favorite medicine.
